**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Extra care should be taken if out and about on the hills during Sunday, due to low cloud and poor visibility on the higher slopes. Pathways may become slippery following any rain.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Monday 13 Sep 2021

Weather: Monday will be rather cloudy and wet, with persistent and heavy rain at times, especially during the morning. Rain is expected to clear by midday, becoming drier in the afternoon, but staying rather cloudy.

Maximum wind: East southeasterly 15-20mph, with gusts up to 25mph on the summits.

Chance of cloud free mountain/hill tops above 600m: 60% chance during the morning, reducing to 10% chance in the afternoon as the rain arrives from the south.

Visibility: Poor in rain and low cloud, with cloud bases down to 300-400m during the morning, improving slightly to 500-600m later in the day. Generally good or moderate away from the summits.

Temperature: **Valleys:** Plus 13 Celsius, becoming Plus 16 Celsius.
At 600m: Plus 9 Celsius, becoming Plus 11 Celsius.
Freezing level: Above the summits.
